

# Node RED Service

The screenshot shows the Node-RED web interface in a browser. The address bar displays the URL: `node-red-wbpd-2022-11-13.eu-gb.mybluemix.net/red/#flow/ea2cb1340699a42`. The interface is divided into several sections:

- Left Panel (filter nodes):** Contains two categories of nodes:
  - common:** inject, debug, complete, catch, status, link in, link call, link out, comment.
  - function:** function, switch.
- Flow Canvas:** The central workspace showing a flow named "Flow 1". It contains two nodes: a blue "inject" node with the text "Hello Node-RED!" and a green "msg.payload" node. They are connected by a line.
- Right Panel (info):** Contains a search bar and a list of flows. The selected flow is "Flow 1" with ID "ea2cb1340699a42". Below this, there is a section for "Flow 1" with a search bar and a list of nodes. A message at the bottom of the right panel says: "Move the selected nodes using the ↑ ↓ and → ← keys. Hold ⇧ to nudge them further".

The bottom of the image shows the Windows taskbar with the search bar and several application icons.
